Madurai.

I have purchased about 1000 Coconut  
Seedling (D.T. Hybrid) in the year 1996.

They are yielding ~~at~~ excellently.

I have recorded all my  
tree's yield for the past 5 years. An average  
age of 200 nuts was got all these years  
But in 2008 an average yield of  
227 nuts / Tree was got.

It is performing well and  
a good demand for Tender Coconut is there.

Thanking you

Yours faithfully  
Rajaram
